The deeds for a right of way from the O. B. Smith Company, Charles H. Potter and Charles Fillipini were accepted and the road in San Luis road district, included in the same was declared a public highway.

The Supervisors passed a motion to the effect that when good and sufficient deeds of right of way are presented free of cost, and the road is put in shape they will accept as a public highway a road in Agua Caliente road district. The road is an extension of a street in the town of Sonoma.

Both of these roads are in Road Commissioner Blair Hart's district.

"Doc" Stanley Dead

J. M. Stanley, more familiarly known as "Doc" Stanley, the famous criminal hunter and sheriff of Mendocino Co., is dead. He was one of the bravest and most successful peace officers in this State. He passed away in Portland, Oregon, last Wednesday week. Paralysis, was the cause of death. His wife and daughter were with him when the end came.

Miss Goodwin to Wed

Miss Bessie Goodwin, a former teacher in the local grammar school, and a sister of Vernon Goodwin, will be married in Wytheville, Va on the 29th of this month, to Rev. John Francis Ribble. The groom is the rector of one of the large Episcopal churches of that State. The many Sonoma friends of the bride extend hearty congratulations and best wishes.

The output of green deciduous fruits in California is more than double that of last year at this date.

Dabner Must Hang

Governor Gillett refused Saturday to commute to life imprisonment the death sentence of Louis Dabner, who, with his companions in crime, John Siemsen, will be executed at San Quentin on July 31st for the murder of M. Murakata a Japanese banker of San Francisco. The pair was guilty of several other murders and robberies, but the murder of Murakata was the crime for which they were convicted and sentenced.

Siemsen and Dabner were two of the most heartless and brutal murderers who ever infested San Francisco, and they instituted what came to be known as "a reign of terror." Dabner, from Tama, was a raw country boy, and until he met Siemsen, had never been in trouble. This fact made his bloody crimes all the more remarkable.

The crime for which the men were convicted was committed at noon of Oct. 31, 1907. They walked into a Japanese bank, of which M. Murakata was manager and A. Sasaki, assistant manager. Murakata was beaten to death, and Sasaki so seriously injured that he lay between life and death for several weeks, and it was some months later before his reason was restored. The thugs looted the institution of \$2700.

Just a month later Siemsen and Dabner entered the jewelry store of Henry Belrend. He was beaten on the head by a fishplate, but called for help, and clung to Dabner until the police arrived, thereby earning the \$1,500 reward that had been offered for the thugs.

White vs. Brown Eggs

At a recent test made by the California Agricultural Experiment station it was shown that the shells and their color have but slight effect on the food value of the eggs. It has been said by some that the brown eggs are richer than the white ones, but this statement is not borne out by a chemical analysis, and the physical examination proves that the main points of superiority, though slight, are possessed by the white egg. The minute differences that are found between the two groups are exceeded by variation between varieties within the same group. It may be stated that there are practically no differences so far as a food value is concerned between white-shelled and brown-shelled eggs.

John Steadman Hurt

While attempting to board the Steamer Rose City at Astoria, Oregon, Monday afternoon, John Steadman, a former resident of Sonoma, fell between the vessel and the pier and was badly crushed. He was immediately taken to the hospital but after giving his name and address, relapsed into unconsciousness. He seemed to realize that the end might come at any time and told the attendants that his mother lived in Marysville and asked them to notify her and R. S. Bosworth at Portland.

Guerneville Fire

The town of Guerneville came very near being burned down again last Friday afternoon. Heroic efforts stopped the flames after the Methodist parsonage and a barn had been destroyed. Mr. Westcott's home was burned the previous morning.

Over Thirty Years

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by L. S. Simmons.

A. E. Sondag, the Tailor

A. E. Sondag, the tailor, formerly of Sonoma, was in the valley this week taking orders for men's tailor-made suits. Mr. Sondag and family are temporarily located in Fruitvale, but the former expects to get permanent quarters for his tailoring establishment in the metropolis, in the near future. For many years he has enjoyed a liberal patronage from this valley and his work always gives satisfaction. Mr. Sondag will make regular weekly trips to the valley and solicits a share of the trade. Give him a trial order for a good suit and you'll be satisfied.

The Antelope Gazette reports the success of a lady in goat-raising who started raising goats some years ago, having at that time only eight. Last year she made a sale of 2,300 goats, the increase of the eight.

New Schooner Run

Capt. D. L. Larkin will soon start to make regular trips with the Schooner Four Sisters, between Sonoma and San Francisco. The regular runs will be made three or four times per week and will begin as soon as the first fruit is ready for market, and will continue during the season and as long after as business will warrant. Fruit shipped by boat is preferred in the metropolis as it reaches there in first-class shape and sells more readily.

The Four Sisters will land at the new landing on Schell's Slough below town, a much nearer point than the old landing. Rates very reasonable, so much so that you can save money by shipping by the Schooner. The San Francisco landing is at Mission Wharf No. 1.

A hundred thousand trees are being planted on the forest reserve near Pike's Peak, in Colorado. This is the first planting in the great scheme for twenty million trees on that one reserve.

Cut Out Politics

There is a tinkle of talk going about the valley as to who will be the next Republican nominees for superior judge of this county. The correct idea that the judge ship should be an office entirely out of politics, is fast becoming a fixed one. Our present judges are honest, upright, capable and fearless and if they want the office again, they should have it regardless of political pulls. An upright judge is a great desideratum. We have two for this county. Let's keep them, Judge Denny is a Republican and Judge Seawell a Democrat. This ought to be sufficient to satisfy partisans on both sides.

Sonoma Will Celebrate

Now that it has been definitely decided to dedicate the new city hall on Admission Day, let every body boost and help to make the affair a grand success. Let's have a monster parade, a barbecue, games, grand ball, etc., etc. In 1896 Sonoma celebrated the 50th anniversary of the raising of the Bear Flag and the grand time then given is often referred to and will long be remembered. All hands will work to gether in the coming big time and no doubt it will equal, if not eclipse, anything of the kind ever given here.

Has John D. Forgotten?

It begins to look as though that little fine of \$29,000,000, that the United States Court imposed upon the Standard Oil Co., sometimes referred to as John D., will go down in history as the greatest unpaid fine on record.

Our Summer Season

The fine summer weather for the past few weeks, has been of great value to fruits, berries and other growing crops in this valley. Grapes are looking fine and like the fruit, a large crop of fine quality will be harvested. The summer resorts too are crowded with guests who annually make Sonoma valley their outing place. It is estimated that here are at least 3000 summer visitors in the valley at present.

People Interested

Anent the asking of the Board of Supervisors to endorse the plan to have the Southern Pacific ferry steamers carry horses and vehicles and automobiles, the Examiner of Sunday has this to say of the interest being taken in other places: "An effort is being made to persuade the Supervisors of Contra Costa county to build a road to Vallecito Junction and meet the growing demand of automobilists from the east side of the bay for a more direct driveway to Sonoma and Solano counties. The Southern Pacific has agreed to run a boat upon which carriages, wagons and automobiles can be transported, provided Vallecito Junction be made accessible to pleasure seekers. Residents about the bay have brought considerable pressure to bear upon the Contra Costa Supervisors to build the road, and a large delegation from Napa, Santa Rosa and adjoining cities is planning to be present in Martinez July 17, at the next meeting of the Contra Costa County Supervisors."

Will Not Pick

Hops have been so low priced and the prospects for the future so unpromising, that many growers in Washington and Oregon, have not cultivated their yards and will not gather any hops this year.

Trustees Meeting

All members were present at an adjourned meeting of the Board of Trustees of the City of Sonoma, held in the marshal's office of the city hall last Wednesday evening. Mayor Breitenbach presided and Clerk Small was at his desk.

Bids for hauling and distributing 200 barrels of dirt about the city hall were opened. There were only two bidders, namely, S. Sebastiani, whose bid was 60 cents per yard, and H. Castagnasso who offered to do the work for 45 cents per yard. Mr. Castagnasso was awarded the contract.

Bids for city printing were then opened and the contract for legal advertising was awarded to the Index Tribune at 5 cents per square of 233 ems nonpareil or minion.

The Expositor was given the contract for all job printing except two or three items.

The ordinance fixing the water rates in this city was passed to the third reading and adopted by unanimous vote.

The Board then gave a hearing to a committee from Sonoma Parlor, N.S.G.W., who came to urge the trustees to dedicate the new city hall on September 9, Admission Day. The committee was composed of M. F. Cummings, Claude E. Johnson and W. O. Hocker.

Messrs. Cummings and Hocker both addressed the board and spoke of the appropriateness of dedicating the new municipal building in the historic plaza where the Bear Flag was raised more than sixty-two years ago. The Trustees heartily coincided with the idea.

The motion for the Board to meet with the committee in the city hall to night to consider plans for a big celebration on September 9th. Three separate amendments to the license ordinance of this city were introduced by Trustee McDouneil. The first of the amendments is that the merchants are to pay an increased license and many occupations, hitherto untaxed, are now required to pay a revenue to the city, or will be, if the amendments carry. The third reading of the proposed amendments to the ordinance and vote upon the same will occur at the regular meeting of the Board in August.

In the changes proposed, slot machines are to be licensed but the amount has not yet been settled upon. Merchants are to be taxed according to their average monthly sales and are to be divided into four classes, if the ordinance passes. Merchants whose sales amount to \$1000, or over, per month, will be required to pay a license tax of \$12.50 per quarter; from \$500 to \$1000, \$7.50 per quarter; from \$300 to \$500, \$4 per quarter; less than \$300, \$2.50 per quarter.

Saloon license amendments were proposed according to the wishes of the local saloon men, the features objectionable to them being eliminated. The license of \$10 per month is to be paid quarterly in advance instead of six months in advance.

Another ordinance introduced provides of the licensing of news papers, undertakers and teamsters, a queer combination that brought forth much amusing comment.

Some of the trustees stated that the reason that the license tax was raised on merchants and others, was to secure additional revenue for the running expenses of our growing city.

No further business appearing, the Board adjourned to the first Wednesday in August, when the new amendments will come up for the third reading and final vote.

Railroad Exonerated

Coroner Frank L. Blackburn held an inquest Monday afternoon on the remains of the late Henry Leopold, who was killed last Friday by a freight train on the Northwestern Pacific railroad, near Fulton. The road and its employees were exonerated from blame, the evidence showing that the train crew gave every possible warning in their power to prevent the tragedy. At the time he was run down Leopold was walking with his head down, and did not look up to see if any cars were coming. Deafness prevented his hearing the warnings.

Russell, principal; Miss M. E. More, Miss Ellen Trueblood and R. H. Platt, commercial department.

STATE WANTS MONEY

Congressman Duncan E. McKinlay left Tuesday morning for San Francisco, where he attended a meeting held by the State Board of Trade regarding the controlling of the pear and peach blight, which have worked such havoc in the orchards of the State. It is the intention of the State board to urge the national government to grant an appropriation for the fighting of the blight, and the meeting was held at this time for the purpose of conferring regarding the petition and the meeting with Congressman McKinlay and others of the national government regarding the matter.

Natives Entertain

Glen Ellen Parlor, N.S.G.W., delightfully entertained a large gathering of brother natives, their wives and lady friends, last Saturday evening. After the regular business meeting of the Parlor in Native Son Hall, adjournment was taken to Chauvet Hall where the public installation of officers was ably performed by Dist. Dep. Grand Pres. George W. Cobb. A number of pleasing speeches were made by local and visiting brethren. Delicious refreshments were served during the evening. Dancing was enjoyed until after midnight.

The following officers will have charge of the Parlor for the ensuing year:

Pres., Howard Gaige; 1st. Vice Pres., L. O. Allison; 2nd. Vice Pres., H. D. Bremer; 3rd. Vice Pres., J. Friderger; Sec'y, Chas. J. Poppe; Treas., A. M. Hardman; In. S., C. C. Weise; Out. S., H. J. Chauvet; Marshal, B. M. Bones; Trustee, Harry Weise.

Turned Turtle

Drs. Thomson and Gottenberg had rather an exciting experience one day this week on the road above Agua Caliente. They were riding in the former's auto when the front spring broke. The occupants were thrown out and the machine turned turtle. Fortunately neither of the gentlemen were hurt, but the auto will have to go to the machine hospital for repairs. Dr. Gottenberg, in falling, alighted on a large boulder which he avers possesses none of the characteristics of a head rest. It is reported that the rock is badly cracked. The injured auto was towed by a team of two professional gentlemen to Mr. Allison's place and another motive power brought the machine into town.

The schooner "Four Sisters," Capt. Larkin, is now running regularly between San Francisco and the landing below Sonoma. The "Four Sisters" makes a trip to the metropolis three times a week, namely, on Mondays, Wednesdays and Fridays and will make daily trips whenever the local patronage requires it. THE SECRET OUT.

A Wide Open Statement.

To refute the many false and malicious attacks, rumors, and other unfounded statements published concerning Dr. Pierce's World-Famous Family Medicine, the Doctor has decided to publish all the ingredients entering into his Favorite Prescription for weak women and his equally popular Tonic Alternative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native medicinal roots. The ingredients of the "Golden Medical Discovery" being a non-alcoholic extract of Golden Seal, root, Queen's root, Black-cherry, root, Canada root, Blood-root and Stone root, preserved by chemically pure glycerine.

Dr. Pierce's Golden Medical Discovery, being made of native medicinal roots, is next to Nature and is the best tonic you can use. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. No man or woman can be either healthy or handsome who has impure blood. After taking it will show in pimples, boils, and eruptions in the dark circles under the eyes and in the scalp. After taking Dr. Pierce's Golden Medical Discovery you are bound to have pink cheeks and a fresh complexion. The muscles are the good, rich, red blood, that puts on strength. It is a flesh builder, but not a fat builder.

As an example of the good results thus obtained, note the following letters:

"In the year 1898, I had an attack of indigestion and got so bad that I could not eat. I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles and when I commenced using it I was so well, could hardly wait about the house. By the time I had used the bottle my stomach and bowels com-

menced to heal. There were strips of the lining of my bowels as large as a man's two fingers passed and I had a great deal of mucus in my stomach and bowels and also in the return especially. I could not eat anything without having much distress afterward. But by the time I had taken eight bottles of the Golden Medical Discovery, I was sound and well, and could eat anything pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since."

These are the Original Little Pills. First put up over 40 years ago by Dr. J. C. De Witt. They have been much imitated but never equalled. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and concentrated vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and nervous headaches and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. In fact, they are the people are kept in ignorance.

BREVITIES

Regarding issuance of permits for keeping pheasants in captivity, Chas. Vogelsang, chief deputy of the fish commission writes: "This Board is liberal in its interpretation of the law, especially when it makes for the preservation of the species. A great many have taken up pheasant culture with marked success. Out of our hunting licenses we will shortly establish a game farm to hatch and distribute for general good, pheasants, partridges and other wild birds and possibly animals."

The "spotless town" war which has been spreading on all sides, is one well worth imitation by people living in rural districts. It has been found that parks, well kept streets and a general clean appearance on all sides, increases values and draws people of the best classes to the cities. If this be true of the cities it will be still more true of the country sides. Let the people of the country organize improvement associations which will take pride in making every community just a little bit nicer than its neighboring community, and we will soon have our "State more talked about than ever before."

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol for Dyspepsia: "E. C. DeWitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs; in fact I made up my mind that I could not live but a short time, and when a friend of mine recommended Kodol, I consented to try it to please him and was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity may be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by all druggists.

Dispatches from eastern orange markets show that the success of the pre-cooling plants used in the orange industry this year has been completed.

There is one preparation known today that will promptly help the stomach. This is Kodol. Kodol digests all classes of food, and it does it thoroughly, so that the use of Kodol for a time will without doubt help anyone who has stomach trouble. Take Kodol today and continue it for a short time that is necessary to give you complete relief. Kodol is sold by all druggists.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Would Have Saved Him \$100.00

In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do any thing. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world; and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill. Sold by L. S. Simmons.

Wise Talks by the Office Boy Repeated

A pretty young lady dropped in at a music store the other day, and stepping up to a counter where a clerk was sorting music, said, "Have you 'Kissed Me' by Moonlight?" And the lobster turned about half around and said, "It must be the other young man at the next counter. I have only been here a week." A man came into our store one day, and going up to the head clothing man said, "I am going to have a fit." The head clothing man got him a comfortable chair and a glass of water, and asked him "if he should call a physician. Then the man began to laugh, and said, 'I've been buying misfits in clothing all my life, and a friend told me if I'd come here I'd get a fit, and that's really what I want.' And it didn't take him long to get it, either. Gee! It's wonderful the way our new summer models fit. You see they're made in about six different models from the very extreme for the college man, to the very conservative for the quiet dresser. And our salesmen, either by intuition or good judgment or both, seem to be able to fit a man better than any merchant tailor possibly could.

Summer suits run from \$5.00 to \$30.00.

LYDIA DARRACH. Loxley House, Philadelphia, Where She Played Eavesdropper.

One of the favorite stories connected with the Revolution is the tale of Lydia Darrach's patriotism, which story, like others of similar import, has been discredited by the discriminating historian. Notwithstanding the cold douche thrown upon the tradition it remains popular with all who know it. The house where the famous eavesdropping on the part of the Quakeress took place is not so well known.

Those who have heard or read the story of Mrs. Darrach hardly need to be informed that she and her husband lived in what was called the Loxley house, once at the southeast corner of Little Dock and Second streets. Little Dock was the thoroughfare which runs in a southwestern direction from Dock street to Second street. The ground upon which the Loxley house stood was acquired by Benjamin Loxley, a well to do carpenter, who owned practically a whole square in this vicinity, from George Clymer in April, 1750, and the queer little house was erected immediately. It was a speculation, for there is nothing to show that the owners ever lived there.

The house gained its fame from its peculiar facade, which was unlike anything in the city, and from the anecdote which connects Mrs. Darrach with the place. The great preacher, Whitefield is said to have addressed the multitudes from the balcony on either his sixth or seventh visit to this country—1733 or 1730.

The Revolution had long since been over and most of the patriots in their graves before the tale of Mrs. Darrach's bold adventure, which is believed to have saved Washington and his army from capture by the British, became known. In the first number of the first volume of the American Quarterly Review, issued in March, 1827, the tale was told for the first time. There it is credited to "Garden's Anecdotes of the American Revolution." The author of the story in the American Quarterly Review, however, must have had access to a major Gardner's manuscript, for the story was not published in his book until the second series was issued in the latter part of the year 1828—Philadelphia Ledger.

STORIES OF TENNYSON. Showing Some of the Odd Ways of the Famous Poet.

In the memoirs of the late William Allingham, the English poet, appear some interesting reminiscences of Tennyson. Allingham's first sight of him was at Twickenham, where Tennyson was then living. He says: "Soon came in a tall, broad shouldered, swarthy man, slightly stooping, with loose dark hair and beard. He wore spectacles and was obviously very nearsighted. Hollow cheeks and the dark pallor of his skin gave him an unhealthy appearance. He was a strange and almost spectral figure. The great man peered close at me and then shook hands cordially, yet with a profound quietude of manner. He was then about forty-one, but looked much older."

In 1889 Allingham visited Tennyson at the latter's home, Farringford, in Freshwater, Isle of Wight. One morning they were talking on the downs together, and Allingham said that he felt happy. Tennyson said gloomily, "I'm not at all happy—very unhappy." The reason, as Tennyson afterward explained, for his particular unhappiness was his uncertainty regarding the condition and destiny of man. Allingham was very anxious to photograph him on this visit, but Tennyson positively refused. "You make bags under my eyes," he said.

At another time during this visit, as Allingham writes, they talked of dreams. "Tennyson said: 'In my boyhood I had intuitions of immortality—'inexpressible.' I have never been able to express them. I shall try some day." I said that I, too, had felt something of that kind, whereat Tennyson, being in one of his "less amiable" moods, growled, 'I don't believe you have. You say it out of rivalry.'"

Allingham describes Tennyson's fondness for strange antics, such as jumping round and round like a penguin, and adds, "He is the only person I ever saw who can do the most ludicrous things without any loss of dignity."
